Notes to Interim Consolidated Financial Statements (Unaudited) For the period ended September 30, 2011

(in US dollars unless otherwise stated)

1 Nature of operations and basis of preparation

Aureus Mining Inc. ("Aureus Mining" or the "Company") is a new company incorporated under the Canada Business Corporations Act on February 1, 2011 in order to facilitate the Plan of Arrangement (the "Arrangement" – see Note 2). Following completion of the Arrangement, Aureus Mining holds gold assets and an investment in Stellar Diamonds plc. ("Stellar Diamonds") previously owned by Afferro Mining Inc. ("Afferro Mining", formerly African Aura Mining Inc. ("African Aura")). The focus of Aureus Mining's business is the exploration and development of such gold assets, particularly the New Liberty Gold Project.

These condensed interim consolidated financial statements ("interim financial statements") have been prepared in accordance with International Accounting Standard ("IAS") 34, "Interim Financial Reporting", they do not include all disclosures that would otherwise be required in a complete set of financial statements. They follow accounting policies and methods of their application consistent with the interim consolidated financial statements for the period ending June 30, 2011. Accordingly, they should be read in conjunction with the Company's June 30, 2011 interim consolidated financial statements.

The consolidated financial statements of Aureus Mining for the year ending December 31, 2011, will be prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). As these interim financial statements represent Aureus Mining's initial presentation of its results and financial position under IFRS, they were prepared in accordance with IAS 34, Interim Financial Reporting, and use the accounting policies which Aureus Mining expects to adopt in its consolidated financial statements for the year ending December 31, 2011 based on currently effective standards. These interim financial statements may differ from those presented in Aureus Mining's first annual IFRS financial statements for the year ending December 31, 2011 due to changes to the IFRS standards, if any.

These interim financial statements were authorized by the Board of Directors on November 10, 2011.

2 Plan of Arrangement

On April 13, 2011 African Aura completed the Arrangement under the British Columbia Business Corporation Act pursuant to which it transferred its gold assets, 30,792,770 shares in Stellar Diamonds and \$10.6 million cash (the "Transferred Assets") to Aureus Mining and African Aura was renamed Afferro Mining Inc.

The Arrangement was approved by the Board of Directors of African Aura and by African Aura's shareholders at a special meeting held on April 5, 2011.

Under the Arrangement, among other things, the Transferred Assets were acquired by Aureus Mining and each Participating Shareholder received new common shares in Afferro and Aureus Mining in exchange for the African Aura common shares held by such shareholder on the basis of one new Afferro common share and one Aureus Mining common share for each African Aura common share held by such shareholder.

Notes to Interim Consolidated Financial Statements (Unaudited) For the period ended September 30, 2011

3 Capital contribution

As described in Note 2, on April 13 2011, upon completion of the Arrangement Aureus Mining received the Transferred Assets from Afferro Mining. As there was no substantive change in ultimate ownership of the Transferred Assets as a result of the transaction, the transaction has been accounted for as a capital contribution and the Transferred Assets have been brought into Aureus Mining at the carrying values recorded by Afferro Mining at the date of transfer as follows:

On May 19, 2011, the Company concluded a public offering issuing 27,000,000 new common shares of Cdn\$1.30 each raising gross proceeds of Cdn\$35.1 million. The direct costs to issue that have been charged to share capital amounted to Cdn\$2.4 million (including compensation warrants valued at Cdn\$0.2 million (see Note 7)).

On June 3, 2011, the over-allotment option attached to the public offering was exercised upon which the Company issued 4,050,000 new common shares of Cdn\$1.30 each raising gross proceeds of Cdn\$5.3 million. The direct costs to issue that have been charged to share capital amounted to Cdn\$0.3 million (including compensation warrants valued at Cdn\$ 26,882 (see Note 7)).

In the quarter ended September 30, 2011, the Company issued 421,467 new common shares in exchange for the exercise of 421,467 stock options at a weighted average exercise price of Cdn\$0.66.

(c) Stock options

In connection with the Arrangement, each African Aura option outstanding immediately prior to the completion was exchanged for one Afferro option and one Aureus Mining option and the African Aura option so exchanged was immediately thereupon cancelled.

The Aureus Mining options were granted pursuant to the Aureus Mining Stock Option Plan. The issuance of Afferro options and Aureus Mining options is intended to put the holders of the options in the same position (or as close as possible thereto) as each shareholder of African Aura who participated in the Arrangement as if such holders of African Aura options had exercised such options prior to the effective time of the Arrangement. Therefore it is not necessary to value the African Aura options prior to the effective time of the Arrangement and Afferro and Aureus options after the effective time using an option pricing model as these options are not a new grant or a re-pricing.

The exercise price of each Afferro option and each Aureus Mining option was determined in accordance with the following formulae, in each case rounded up to the nearest whole cent:

the exercise price of each Afferro option represents the product of (a) the original exercise price of the African Aura option multiplied by (b) the difference between one (1) and the Exercise Price Proportion, an amount determined in accordance with the fraction A/B where:

 (A) is the one day volume weighted average trading price of one Aureus common share following the completion of the Arrangement; and (B) is the aggregate of the one day volume

weighted average trading price of one Aureus common share and one Afferro common share following the completion of the Arrangement; and

• the exercise price of each Aureus Mining option represents the product of (a) the original exercise price of the African Aura option multiplied by (b) the Exercise Price Proportion.

The Exercise Price Proportion was calculated as 0.3978
