#### 1 Nature of operations and basis of preparation

Aureus Mining Inc. ("Aureus Mining" or the "Company") was incorporated under the Canada Business Corporations Act on February 1, 2011. The focus of Aureus Mining's business is the exploration, development and operation of gold assets in West Africa, specifically the New Liberty Gold Mine in Liberia. Commercial production at New Liberty was declared on March 1, 2016 following which:

- capitalisation of revenues earned and costs incurred during the pre-production period ceased;
- revenues earned and costs incurred after commencement of commercial production are accounted for in profit or loss;
- capitalisation of borrowing costs ceased and are now accounted for in profit or loss; and
- depreciation of New Liberty Gold Mine assets on a units of production basis commenced.

These condensed interim consolidated financial statements ("interim financial statements") have been prepared in accordance with International Accounting Standard ("IAS") 34, "Interim Financial Reporting", they do not include all disclosures that would otherwise be required in a complete set of financial statements. They follow accounting policies and methods of their application consistent with the audited consolidated financial statements for the year ended December 31, 2015 except for the adoption of new accounting policies as discussed below. Accordingly, they should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2015.

These interim financial statements were authorised by the Board of Directors on August 5, 2016.

#### New accounting policies adopted effective January 1, 2016

## Gold sales

Revenue from sales of gold is recognised when:

- the Company has passed the significant risks and rewards of ownership of the product to the buyer, usually when gold doré leaves the gold room;
- it is probable that the economic benefits associated with the sale will flow to the Company;
- the sales price can be measured reliably;
- the Company has no significant continuing involvement; and
- the costs incurred or to be incurred in respect of the sale can be measured reliably.

### Cost of sales

Cost of sales consists of production costs, depreciation of mining assets and costs during temporary plant shutdown.

Production costs include mine operating expenses (such as hire of mining equipment, staff costs, fuel, consumables, maintenance and repair costs, general and administrative costs), third-party smelting, refining and transport fees, royalty expense, changes in inventories for the period and any impairment to reduce inventories to net realisable value. Cost of sales is based on average costing for contained or recoverable ounces sold for the period.

Notes to Condensed Interim Consolidated Financial Statements (Unaudited) For the three and six months ended June 30, 2016 and 2015

(in thousands of US dollars unless otherwise stated)

#### 1 Nature of operations and basis of preparation (continued)

Costs during temporary plant shutdown are mine operating expenses that were incurred during the temporary suspension of plant processing operations from May 7 to June 30, 2016 as a consequence of operating problems with the detoxification circuit in the process plant.

#### Promissory note

A promissory note is initially recognised at the fair value of the proceeds, net of transaction costs incurred. These transaction costs are subsequently amortised under the effective interest rate method through the income statement. A promissory note is classified as a current liability unless the Company has an unconditional right to defer settlement of the liability for at least one year after the balance sheet date.

New accounting standards or interpretations that became effective for periods beginning January 1, 2016 had no material impact on the financial statements.

#### Going concern

The condensed interim consolidated financial statements have been prepared on a going concern basis. As at June 30, 2016, the Company has net current liabilities of US\$33.3 million and has approximately US\$19.0 million of debt repayments due in the next twelve months. The net current liability position is as a result of commissioning and ramp up issues at New Liberty during the second half of 2015 and early 2016 and the recent processing plant stoppage required to optimise the detoxification circuit at New Liberty.

The Company has completed a number of mine plan scenarios at varying gold price levels and these plans have been submitted to Rand Merchant Bank ("RMB") and Nedbank Limited ("Nedbank") (collectively, the "Lenders") as the basis for discussions with the Company, to mutually agree an appropriate debt repayment schedule. The Company also received credit approval from the Lenders for a four month default waiver and standstill agreement during which time the Company will work with the Lenders to reschedule the debt repayment profile. The waivers encompass all existing, as well as future breaches of the loan documentation that may occur during the standstill period, and a deferral by the Lenders of all principal and interest payments during this time.

Based on discussions and the support received to date, there is a reasonable expectation that an appropriate debt repayment schedule will be achieved, however there can be no absolute certainty that the negotiations will be successful or that the Company will be able to generate the necessary funds to repay the debt as it currently falls due.

These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern and that the Company may therefore be unable to realise their assets and liabilities in the normal course of business.

The financial statements do not include the adjustments that would result if the Company was unable to continue as a going concern.

### (a) Liberia

The Company holds a mineral development agreement ("MDA") in Liberia for gold development. This MDA is in Western Liberia and is held by Bea Mountain Mining Corporation ("Bea Mountain"), Aureus Mining's local subsidiary. The MDA is valid for 25 years with an option to renew for a further 25 years and is dated November 28, 2001, approved on March 14, 2002 and restated, amended and ratified on September 19, 2013. On July 29, 2009 the Company was granted by the Government of Liberia a Class A Mining License within the Bea MDA. The license allows the Company to explore and mine in a 478 km² area which encompasses the New Liberty Gold Project, Ndablama, Weaju, Gondoja, Silver Hills and Leopard Rock.

In November 2013 the Company increased its contiguous ground holdings around its New Liberty Project through the acquisition of four new exploration licenses referred to as Yambesei (759 km²), Archean West (112.6 km²), Mabong (36.6 km²) and Mafa West (15.6 km²).

On January 6, 2016, the Company completed the acquisition of Sarama Investments Liberia Limited which holds the Cape Mount, Cape Mount East and Cape Mount West licences, for a total consideration of 5,648,310 Aureus common shares. The acquired licences are contiguous to the Company's Bea Mountain Mining Licence and are located close to the New Liberty Gold Mine. As a result of the acquisition, the Company's total land portfolio in Liberia has increased to 1,683 km².

#### (b) Cameroon

The Batouri licence covers an area of 1,000 km<sup>2</sup> and targets gold in Eastern Cameroon.

#### 6 Financial instruments

The Company's financial instruments consist of cash and cash equivalents, accounts receivable, available-for-sale investments, borrowings, trade payables and accruals, and a warrant derivative liability. Financial instruments are initially recognized at fair value with subsequent measurement depending on classification.

The Company holds 615,855 shares in Stellar Diamonds plc, a diamond mining and exploration company listed on the AIM market operated by the London Stock Exchange. The Company's available-for-sale investments are classified as Level 1 where the fair value is determined by reference to quoted prices (unadjusted) in active markets.

	85,472	91,470

On December 17, 2013 the Company entered into an agreement for an US\$ 88 million project finance loan facility with the Lenders, (the "Senior Facility"), and also entered into a subordinated loan facility agreement for US\$ 12 million with RMB Resources (the "Subordinated Facility"). On December 9, 2015 the Company entered into an agreement for an additional US\$ 10 million Tranche B Senior Facility ("Tranche B Facility", together with the Senior Facility and the Subordinated Facility the "Loan Facilities") provided by the Lenders. These Loan Facilities, which have been fully drawn as at June 30, 2016, financed the development of the Company's New Liberty Gold Project.

The Senior Facility's first repayment of US\$3.1 million was originally due on January 31, 2016 and the final repayment is on January 31, 2020. The Senior Facility bears interest at the United States LIBOR rate plus a 1.8% margin plus a 2.5% ECIC premium for a six year term. The Subordinated Facility bears interest at the United States LIBOR rate plus 7.5% for a six and a half year term and is repayable in full six months after the final Senior Facility repayment. The Tranche B Facility is repayable by December 31, 2017 and bears interest at the United States LIBOR rate plus a 5% margin.

Following the Company's transaction with MNG Gold as discussed in Note 2, the Company received credit approval from the Lenders for a four month default waiver and standstill agreement during which time the Company will work with the Lenders to reschedule the debt repayment profile. The waivers encompass all existing, as well as future breaches of the loan documentation that may occur during the standstill period, and a deferral by the Lenders of all principal and interest payments during this time.

The Senior Facility is secured by charges over the assets of Bea Mountain and charges over the shares in Bea Mountain and its holding companies and guaranteed by the Company.
