

## ENVIRONMENTAL POLICY

Avesoro Resources Inc. is engaged in the exploration and development of gold deposits in Africa. Avesoro Resources is committed to minimizing its impact on the environment and, where feasible, will protect and enhance the quality of the environment in all areas where it operates. We will strive to achieve environmental excellence consistent with the principles of sustainable development.

We will regularly review and ensure this policy remains relevant to each stage of our operations and to the needs of our stakeholders.

In order to achieve these objectives, we will:

- Comply with and, where appropriate, exceed the requirements of applicable legislation, regulations and other policies, codes and standards to which we subscribed;
- Ensure that environmental management is the company priority and that environmental policies, programs, and practices are essential elements of our exploration and operational activities;
- Progressively develop, implement and maintain environmental management systems that are consistent with internationally recognized standards and ensure pollution prevention;
- Provide adequate resources, staff, and requisite training so that employees at all levels are able to fulfil their environmental responsibilities;
- Prepare, review and take account of the environmental effects of each activity, whether exploration, development, operation, and closure of any facility, in a manner that optimizes the economic use of resources while reducing adverse environmental effects and risk;
- Continually improve and regularly monitor, audit and review our environmental performance including developing opportunities for recycling and effective use of resources;
- Promote environmental awareness amongst our personnel and contractors to increase understanding of their roles and responsibilities in environmental management;
- Promote our environmental performance through liaison with and public reporting to the Government and Community.
